HIKING TRAILS ON THE COAST

[Harmony Headlands off Hwy 1](#) - An old ranch has been donated to the park service. This gradual lollipop loop in Harmony Headlands State Park crossed a coastal valley to reach picturesque ocean bluffs on the rugged coast between Cayucos and Cambria.

HIKING TRAILS ON THE COAST continued

[San Simeon Beach off Hwy 1 \(William Randolph Hearst Memorial Beach\)](#) - Address: 500 San Simeon-Monterey Creek Rd, Cambria, CA 93428. This is a beautiful bay that William Randolph Hearst used for transporting materials to build the castle above the bay on the mountaintop and to bring in provisions once the castle was completed. On your drive to San Simeon Beach, look off to the right as you might see zebras grazing alongside the cattle. The zebras are remnants of Hearst's private zoo. There is a lovely hike out to the point of the bay's peninsula. Walk north on the beach and you will see a pathway leading up a hill. (Watch out for elephant seals that might be lounging on the beach) Follow the literally "beaten path" crossing under a wire fence where the trail narrows and you will end up at the end of the peninsula for beautiful views of the ocean. Look out for seals and otter swimming in the ocean.

[Elephant Seal Viewing](#) - Click on the link on the Elephant Seal Viewing link. Scroll down on the website below the red covid section to read about the elephant seal viewing.
